MUSIC AND TEENAGERS

There are so many ways to enjoy music. What's the best?

Do you download music? Do you listen to music on your phone? Do you prefer to watch music or just to listen? There are so many ways to discover, buy and listen to music!

British teenagers like to watch their music online. Watching music on video streaming sites on the internet is now more popular than listening to the radio with young British people. Popular videos can quickly become extremely popular internationally. Now, it's quite common for videos to pass the billion mark and become a big **success**. Things can change quickly on YouTube!

Downloading music is also a popular **choice** for young Brits. The BPI (an organisation which promotes the interests of British music) says that people in the UK prefer downloading singles rather than albums. Record companies and many musicians are very **upset** that people can listen to their music without paying for it.

However, there is also a very **trendy** way to listen to music that we can't forget. Have you ever seen your favourite band or singer **perform** **live**? The O2 in London is the second largest live music arena in Europe. There you can see world-famous bands such as Justin Bieber, The Rolling Stones and Take That. This **huge** stadium has space for 20,000 people. It also has 548 toilets! Tickets are not cheap, however. You can pay more than £50 to see a concert at The O2.

There's not a best option for everybody to enjoy music, there are endless possibilities to do it! What's yours? (Adapted from Learnenglish British Council)
